Function: <i>DTP</i> Reports to: <i>Kiran Duggirala</i>	No. of direct reports: <i>0</i> No. of non-direct reports: <i>0</i>
Budgetary responsibility:	NGR/P&L:

## Purpose of role

We're Entain. Powered by our very own technology and building products that push boundaries, Entain is home to a global family of more than 25 well-known brands and over 24,000 people, but we all play for the same team. When we win, we win together.

Our vision is to be the world leader in betting, gaming and interactive entertainment by bringing moments of excitement into people's lives. We will achieve this through our focus on sustainability and growth, driving change in the fast-paced world of entertainment.

## Key responsibilities

### Leadership:

- Lead with technical expertise and Communicate/motivate/convince team towards solution.

- Provide technical guidance and expertise to team members, ensuring adherence to best practices and coding standards.

- Collaborate with project managers, architects, and other stakeholders in defining project scope, goals, and deliverables.

### Sitecore Development:

- Design and develop robust Sitecore solutions, including new web development patterns, implementation of JSS, and integrations with other systems.

- Develop inhouse headless solution to next level.

- Drive solution towards microservices.

- Customize and extend the Sitecore platform to meet project requirements.

- Ensure the optimal performance, scalability, and security of Sitecore implementations.

### Team Collaboration:

- Collaborate with front-end developers, UX/UI designers, and other team members to deliver seamless and visually appealing user experiences.

- Work closely with quality assurance teams to conduct thorough testing of Sitecore solutions, identifying and addressing any issues.

### Technical Expertise:

- Stay up-to-date with the latest Sitecore developments, industry trends, and emerging technologies.

- Provide thought leadership in Sitecore best practices and contribute to the continuous improvement of development processes.

### Documentation and Training:

- Create and maintain technical documentation for Sitecore implementations.

- Conduct training sessions for team members to enhance their Sitecore development skills.

## Specialist skills and experience

- *Bachelor's degree in Computer Science, Information Technology, or related field.*
- *Proven experience as a Sitecore Developer with a strong portfolio of successful projects.*
- *In-depth knowledge of Sitecore CMS, including customization, configuration, and integration with other systems.*
- *Sitecore Certification (e.g., Sitecore Certified Developer) Is advantageous.*
- *Strong proficiency in C# and ASP.NET development.*
- *Experience with front-end technologies such as HTML, CSS, JavaScript, and frameworks like Angular or React.*
- *Excellent communication skills.*
- *Ability to collaborate effectively with cross-functional teams.*

#### Competencies / behaviours

- *Design and architect innovative software solutions for new projects, demonstrating a strong proficiency in crafting robust software designs.*
- *Effectively communicate these designs to cross-functional technical teams, fostering collaboration and understanding.*
- *Collaborate with subject matter experts within the organization to create cutting-edge solutions that align with business objectives.*

#### Diversity and equal opportunities:

As a global employer, Entain is committed to providing a safe, fun, and inclusive culture where our people feel like they truly belong.

We are a multicultural business that values, celebrates and respects individual differences, so whatever your sexuality, gender, gender identity, ability, age, race, religion or belief, you will have a voice here, and the space to do your best work.

Our diverse internal networks provide the support for you to express your views and make a positive difference.
